## BREAST CANCER & THE ENVIRONMENT RESEARCH CENTER ENVIRONMENTAL EXPOSURE FACT SHEETS

The fact sheets are a publication of The Breast Cancer and the Environment Research Center  
Community Outreach and Translation Cores (COTC).

### SURVEY

**We would like your feedback.**

#### Background

The Bay Area Breast Cancer and the Environment Research Center (BABCERC) Community Outreach and Translation Core (COTC), in collaboration with University of Cincinnati COTC, has prepared six scientific fact sheets for environmental exposures being measured and examined by the Breast Cancer and the Environment Research Centers (BCERC) epidemiology studies. The objective is to provide BCERC researchers, COTC members and community breast cancer and environmental advocates background information, based on a current review of the literature, that will assist in 1) understanding the research being presented at BCERC's annual scientific conference, 2) interpreting the literature as BCERC research findings are disseminated, and 3) developing outreach materials for the lay public.

The six fact sheets are: Perfluoroalkyl Acids, Phenols, Phthalates, and Phytoestrogens (Enterolactone, Daidzein, and Genistein).

The Fact Sheets were reviewed by NIEHS for completeness and reference accuracy and peer-reviewed for scientific content by various researchers from BCERC, NCI and EPA.

#### Directions:

**Please** complete the following 7 questions and mail, fax, or email your survey to:

Jo Ann Johnson  
BABCERC COTC Coordinator  
Zero Breast Cancer  
4340 Redwood Hwy, Suite C400  
San Rafael, CA 94903  
Fax: 415-507-1645

1. (Optional) Name: \_\_\_\_\_ Telephone: \_\_\_\_\_

Email: \_\_\_\_\_

2. I am a (Please check all that apply)

- Researcher    Community Member    Breast Cancer Advocate    Environmental Advocate  
 Educator    Academician    Other \_\_\_\_\_

3. The fact sheets were useful to understanding the research being presented at the BCERC annual scientific symposium in Cincinnati. Check one.

- Strongly Agree    Agree    No opinion    Disagree    Strongly Disagree

Comments: \_\_\_\_\_

---

4. The fact sheets will be useful for researchers, academicians, breast cancer and environmental advocates, educators and community members as BCERC research findings are disseminated. Check one.

Strongly Agree     Agree     No opinion     Disagree     Strongly Disagree

Comments: \_\_\_\_\_

5. The fact sheets will be useful to develop simplified fact sheets for the general public. Check one.

Strongly Agree     Agree     No opinion     Disagree     Strongly Disagree

Comments: \_\_\_\_\_

6. Please tell us which Fact Sheets you found the most useful. Check all that apply.

Daidzein     Genistein     Enterolactone     Phthalates     Phenols     Perfluoroalkyl Acids  
 All six
